Easy to use

Forget about FTP or sending large files as e-mail attachments. ShareFile is the easiest way to share documents, data, images and other business files with one person or with a hundred.

Send large files

Many files are simply too large for standard e-mail. If you're a graphic designer, photographer, accountant or anyone who must receive or send large files, ShareFile can simplify your life.

Use your own company branding

When you sign up for an account, we can customize your ShareFile portal to seamlessly match your company logo and web site at no extra charge.

Total Security

ShareFile uses advanced 128-bit SSL encryption so you can send anything to anyone with complete peace of mind.

Secure & Available Storage

Store your important files on secure servers. Access them from anywhere. Your data is organized, protected and available to you 24/7/365. Data is transferred and stored encrypted.

Usage Report & Audit Trails

Want to know who viewed what file and when? ShareFile makes it easy with powerful Audit and History features.
