

AssureIT/BC

BUSINESS CONTINUITY RECOVERY SYSTEM

DON'T REBUILD IT. RECOVER IT.

Business Continuity Solved!

Traditional methods of data backup and storage are difficult to manage and are no longer adequate in today's business world.

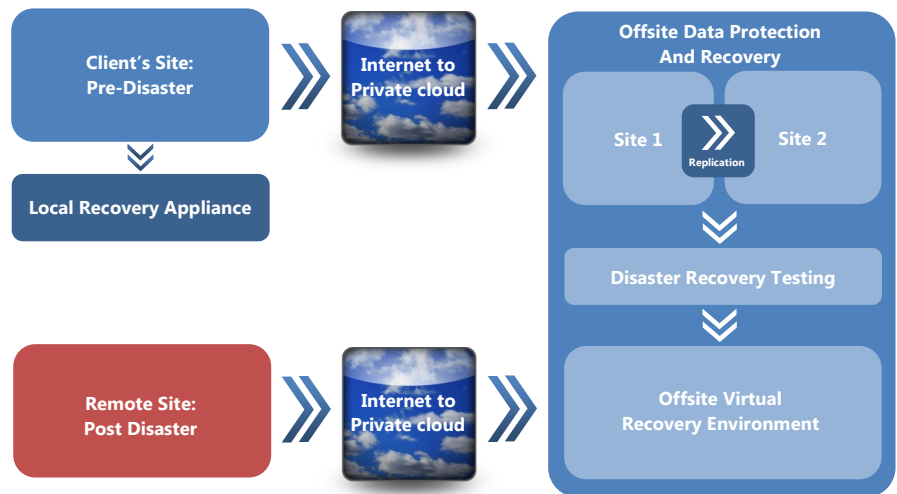

AssureIT/BC provides clients a solid **Backup and Disaster Recovery solution that offers instant on and off-site virtualization, backup verification and true business continuity.** It is an enterprise class Business Continuity backup and recovery solution priced for small and mid-sized businesses.

With the potential of disaster from natural sources, employee sabotage or simply a wrong keystroke, it is now crucial for all businesses to have a solid remote backup and business continuity plan for their business.

With backup and storage redundancy, AssureIT/BC is the most reliable source for complete recovery of business IT environments. Our local storage component allows instant data restoration and server virtualization in the event of local data loss or local server failure.

With AssureIT/BC we provide clients an end to end business continuity solution for IT. We provide everything from full data protection and long term digital archiving to a fully tested and readily available environment that is easily accessible via the web. Our validation end to end testing process ensures that your business is prepared for quick recovery from any type of disaster.
